

CHAPTER ONE OF NOVALIS

FOXAKO *Am I Alive*

A new cinematic electronic chapter unfolding through NOVALIS, an original animated science-fiction universe.

Chapter One, "Am I Alive", is complete and ready to launch.

CHAPTER ONE

AM I ALIVE

■ WATCH — "AM I ALIVE" · YOUTUBE

In 2302, Asha enters the abandoned ruins of NOVALIS and discovers a frozen human child carrying the same consciousness as her own.

The encounter raises the central question of the first chapter: when two versions of one consciousness exist, which one is truly alive?

ORIGINAL MUSIC, 3D ENVIRONMENTS, ANIMATION AND POST-PRODUCTION COMPLETED.

THE MUSIC

LISTEN TO FOXAKO

French Touch combining micro-sampling, electronic funk, imperfect textures and retrofuturist nostalgia.

Foxako combines warm synthesizers, funk-driven rhythms and fragmented samples. His music can be intimate and minimal, or expand into more cinematic territory. Some of the material is first composed and recorded specifically to be sampled, cut apart and reworked, creating a sound built from entirely original sources.

On *Am I Alive*, this process takes on a more cinematic form, reflecting the atmosphere and emotional scale of the NOVALIS universe.

FRENCH TOUCH	MICRO-SAMPLING	ELECTRONIC FUNK	CINEMATIC	RETROFUTURIST

FLAGSHIP TRACK — "AM I ALIVE"

The unreleased flagship track and the entry point of the NOVALIS universe. Available as a private SoundCloud link in the online version. Please do not share.

THE PROJECT

FOXAKO IN SHORT

Foxako is a music and visual creator from French-speaking Switzerland. Building on his previous releases, he is now developing NOVALIS, a project connecting his music to an evolving cast of characters and stories.

He writes the music and story, and develops the project's graphic design, motion, 3D environments and character animation. Keynok collaborates on the illustrations and visual development of the characters and world.

UNIVERSE

NOVALIS, a science-fiction saga

STATUS

Chapter One complete

ARTIST

Existing catalogue, new artistic direction

LAUNCH STATUS

NOVALIS not yet publicly released

THE WORLD

ENTER NOVALIS

NOVALIS is the narrative foundation connecting every release in this new Foxako chapter: a five-arc science-fiction saga. The story begins in its final era, showing the consequences before revealing their causes. Each following release then returns to an earlier period and gradually fills in the missing pieces.

PREQUEL

2050-2130

THE CREATION

A sealed city is built around the promise of a nearly infinite source of energy.

NEXT RELEASE

2130-2180

CITY OF PEACE

A protected megacity where humans and conscious machines begin to coexist.

2180-2226

THE SHIFT

The Nomiras question their role, and the balance of the city begins to fracture.

2226-2227

THE LAST WAR

A rebellion and a chain reaction destroy the city and open the energy breach.

CHAPTER ONE

2302-∞

POST NOVALIS

Seventy-five years later, the surviving Nomiras build a society among the ruins.

WHY START AT THE END?

Instead of explaining everything, the first chapter presents the consequences before the causes: an abandoned city, conscious machines inheriting human memories and one impossible encounter hidden beneath the ruins.

Rather than continue from there, the next chapters rewind to an earlier era and move forward through the timeline. Only much later does the story reach that final era again, and reveal what happens after the ending left in suspense.

NOVALIS uses a stylised low-poly language inspired by early 3D games, Y2K culture and retrofuturist science fiction. Rather than pursuing photorealism, its simplified forms put the focus on composition, lighting and atmosphere.

ROADMAP

WHAT'S NEXT

After Chapter One, the saga rewinds to the **City of Peace** arc, which opens with three singles building towards a full album. Each single carries its own cover by Keynok.

SINGLE 01

CITY OF PEACE

Opens the arc. The flagship single.

IN PRODUCTION

SINGLE 02

POP THE BUBBLE

Introduces the characters.

IN PRODUCTION

SINGLE 03

WANDERERS

Album lead single.

2D VIDEO IN DEVELOPMENT

IN PRODUCTION

THE ALBUM & ITS 2D ANIMATION

The arc builds toward a full album. Its lead single, Wanderers, gets a 2D animated video, now in development. The first chapter was 3D; this one adds hand-drawn 2D, with Keynok on the look.

Wanderers, early 2D animatic, work in progress.

SOCIAL MEDIA

SOCIAL MEDIA VISION

The social media campaign will launch with the first release. It will combine music excerpts, short narrative scenes, production footage and appearances by Foxako's digital avatar.

HOW THE AVATAR WILL BE USED

The avatar will be animated through motion tracking and placed inside custom 3D environments, allowing Foxako to move between the real production process and the fictional world of NOVALIS.

This setup will be used for short performances, narrative fragments, visual experiments and behind-the-scenes content linked to each release.

PARTNERSHIP

THE RIGHT PARTNER

Foxako is looking for a label and creative partner to help launch NOVALIS, define its release strategy, handle distribution and promotion, and build an audience over several releases. The identity, first chapter and long-term narrative foundation are already established, but the project has not yet been publicly launched.

Chapter One is complete, and the following arc is already in development. Foxako is looking for the right partner to join the project before launch and help develop it over time.
